RE: *Proposition 65 Warning*

Dear customer,

We are writing to provide information regarding the requirements of California Proposition 65 that may apply to our products. This letter provides information on California Proposition 65 and regulatory warnings to comply with applicable requirements.

Administered by the Office of Environmental Health Hazard Assessment (OEHHA). Proposition 65 requires California businesses to provide warnings about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals may be in the products that Californians purchase, in homes or workplaces, or otherwise released into the environment. Per applicable requirements, OEHHA publishes a list of chemicals known to cause cancer, birth defects or other reproductive harm (aka Proposition 65 List). Unless exempted, Proposition 65 regulations require warnings for *significant occupational, consumer product or environmental exposures* from chemicals on the Proposition 65 List. In addition, OEHHA publishes a list of Safe Harbor Levels which include No Significant Risk Levels (NSRLs) for cancer-causing chemicals, and Maximum Allowable Dose Levels (MADLs) for chemicals causing reproductive toxicity. Exposure levels that are less than these Safe Harbor Levels are exempt from the Proposition 65 warning requirements.

Metal Bars is a wholesaler of steel products (carbon, stainless, alloy) and other metal products. These products may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm, including, nickel, beryllium, chromium and lead. Please note that our company does not add any of these listed substances to its products. While we do not believe our products "as supplied" to our customers create significant exposures of listed substances, your company may be required to provide Proposition 65 warnings for any occupational, consumer product or environmental exposures based on your specific use of our products, which are defined by 27 CCR §25600, et. seq. For more information, please visit the following website: **[www.P65warnings.ca.gov](http://www.P65warnings.ca.gov)**.

For additional reference, we have enclosed a Safety Data Sheet for our products providing specific chemical information. In addition, as shown on Attachment #1, please find a Proposition 65 warning label that accompanies each of our product shipments, which your company may reference. If you have further questions, please do not hesitate to contact us at 562-921-8484 or 714-994-5901.

Sincerely,

Michael Allen  
President  
Metal Bars, Inc.
